UiTM Visit to Belum Temengor & Pulau BANDING

In the ambitious UiTM Research Expedition to Belum Temengor and Pulau BANDING, unfolding from October 25 to October 27, 2023, a dedicated cadre of over 20 researchers from Universiti Teknologi MARA (UiTM) Shah Alam embarked on a profound journey. This expedition, beyond its academic pursuits, was driven by a dual purpose – to engage with indigenous communities and delve into their narratives on safety, experiences, and potential threats, while simultaneously fostering authentic connections with the unique cultural tapestry of the region.

More than a conventional research venture, this expedition embodied UiTM's commitment to a holistic and responsible approach. The researchers, armed with scholarly intent, approached their work with a spirit of empathy, recognizing the significance of contributing to sustainable development and the preservation of cultural heritage. This nuanced blend of academia and humanitarian outreach underscored the UiTM Research Expedition as a transformative experience, poised to make a lasting positive impact on the lives of the indigenous communities residing in the pristine landscapes of Belum Temengor and Pulau BANDING.

Upon arrival, the researchers commenced their mission by preparing food bags for distribution to those in need. Following this act of kindness, the team enjoyed lunch before heading to the dock, where a safety briefing preceded their boat journey to Kampung Klewang, one of the indigenous villages. Upon arrival, interviews with the locals commenced, focusing on their safety, experiences, and any perceived threats. The day concluded with the distribution of food bags, ensuring a positive impact on the community.

The second day saw the UiTM researchers heading to RPS Banun with a convoy of eight four-wheel vehicles. Their destination was Kampung Semelor, renowned for its cleanliness. Before conducting interviews, the team met with the Village Chief, establishing a connection with the community. Interviews were then carried out in indigenous houses, providing valuable insights. Subsequently, the researchers visited RPS Banun School, engaging in activities with both students and teachers. The day concluded with the distribution of prizes to students, fostering a sense of appreciation and encouragement.

On the final day, the researchers visited UMK-TRaCE to delve into the history of Pulau Banding and its surrounding areas. A journey through the discovery walk was followed by a seminar room briefing, offering an in-depth understanding of the region's rich history. As this enlightening session concluded, the research group bid farewell to Pulau Banding, concluding their visit. The journey back to UiTM Shah Alam marked the end of a fruitful and enlightening expedition.

The UiTM research expedition to Belum Temengor and Pulau Banding proved to be a comprehensive endeavor, encompassing interviews with indigenous communities, community engagement, and a historical exploration of the region. The researchers' commitment to understanding and contributing to the well-being of the indigenous people exemplifies UiTM's dedication to meaningful research and community involvement. The knowledge gained from this expedition is expected to contribute significantly to future research and community development initiatives

Yayasan EMKAY Roundtable Discussion

Yayasan EMKAY (YE) was founded on 12th January 2001 by its founder, the late YBhg Tan Sri Datuk (Dr.) Haji Mustapha Kamal Bin Haji Abu Bakar, with a mission to continue their philanthropic work and help people in need, especially those living on the fringes of developed areas. Since its inception, YE has been dedicated to five major areas: education, health, religion, social welfare, and sports. However, YE will no longer contribute under the sports category due to the latest guidelines issued by the IRB.

After 22 years since its establishment, the YE has planned to review and discuss its vision, mission, objectives, and sustainability in accordance with current guidelines and policies. All board trustees and invited guests contributed their ideas and perspectives for improving the foundation's new direction. One of the topics discussed during the roundtable session was "Towards a Sustainable Future," which was continued in the 45th Board of Trustees Meeting.

On October 5th, 2023, the Roundtable took place at the Cyberview Lodge & Spa in Cyberjaya, Selangor. YBhg. Dato' Hjh Fazwinna Tan Sri Mustapha Kamal delivered the opening remark on behalf of the family of the Late Tan Sri Datuk (Dr.) Hj Mustapha Kamal Hj Abu Bakar. Dato' Fazwinna pledged her wholehearted support and expressed her eagerness towards collaborative efforts to uphold the legacy of the Late Tan Sri Mustapha Kamal.

The management would like to express their gratitude to all Board Trustees; YBhg. Dato' Dr Noorul Ameen Mohamed Ishack, Mr Peter Teh Heng Poh and Encik Rahmat Ismail and invited guests; Pn Hjh Farah Mahami Tan Sri Mustapha Kamal, Tn Hj Azmil Khuzaid Zakaria, Ms Maria Abd Rahman, Mr Julian Siew and Ms Foo Li Ling for their valuable contributions towards the discussion on Yayasan EMKAY's future.

A Triumph of Wisdom: Congratulations to Our Postgraduate Scholars on Their Graduation

Congratulations to Syarifah Haniera Sheikh Kamal and Nur Athirah Kamaruddin for getting their Master Degree at the UiTM Convocation Ceremony at Dewan Agung Tuanku Canselor, UiTM Shah Alam. Both scholars were awarded a scholarship through the Yayasan EMKAY - UiTM Collaborative Scholarship programme in 2019.

Syarifah Haniera received a Master of Science (Biology) at the 96th UiTM Convocation Ceremony on 23 May 2023 while Nur Athirah received a Master of Health Sciences (Environmental Health and Safety) at the 98th UiTM Convocation Ceremony on 27 November 2023.

To our postgraduate scholars, congratulations on reaching this significant milestone – you are now prepared to embark on a future filled with promise, innovation, and the potential to make a lasting impact. We hope your future endeavours go well, and if you have the time, please think about volunteering to support Yayasan EMKAY and Pulau Banding Foundation as well as Yayasan Pulau Orang Utan Bukit Merah's cause.

A Banquet of Blessings: Supporting Orphanage Welfare Through Meals

Yayasan EMKAY, under the pillar of social welfare, sponsored lunch to three (3) organizations in Kuala Lumpur and Selangor as follows:

- 25 July 2023 : Pusat Aktiviti Kanak-Kanak Chow Kit, Kuala Lumpur
- 24 October 2023 : Pertubuhan Nur Kasih Klang, Selangor
- 1 December 2023 : Shelter Home for Children, Petaling Jaya, Selangor

The Yayasan EMKAY team also visited the i-play Toy Library that was donated in late 2010. The Toy Library is still being used, and it follows an age-level scheduling system. During the visit, the Yayasan EMKAY team, along with some volunteers, interacted with the orphans and less fortunate children in a friendly manner. We hope that the affairs of these children and their teachers/caregivers become easier, and we look forward to visiting the centre/home again.

Sumbangan makanan tengah hari kepada anak-anak yatim

Melalui cabang kebajikan, Yayasan EMKAY menaja sumbangan makanan tengah hari kepada tiga (3) buah organisasi di sekitar Kuala Lumpur dan Selangor. Butiran penerima sumbangan makanan tengah hari adalah seperti berikut:-

- 25 Julai 2023 : Pusat Aktiviti Kanak-Kanak Chow Kit, Kuala Lumpur
- 24 Oktober 2023 : Pertubuhan Nur Kasih Klang, Selangor
- 1 Disember 2023 : Shelter Home for Children, Petaling Jaya, Selangor

Yayasan EMKAY turut mengambil kesempatan melawat Perpustakaan Permainan i-play yang telah disumbangkan pada hujung tahun 2010. Kami dimaklumkan Perpustakaan Permainan masih digunakan mengikut penjadualan tahap umur anak-anak tersebut.

Pada sesi sama, pasukan Yayasan EMKAY yang turut disertai barisan sukarelawan turut beramah mesra dengan anak-anak yatim dan kurang bernasib baik ini. Kami doakan agar urusan anak-anak ini serta guru/pengasuh dipermudah dan berharap agar kami dapat berkunjung lagi ke pusat/rumah tersebut.

Funeral hearse contribution to Masjid Damansara Perdana

On 29th June 2023 or 10 Zulhijjah 1444H, the Yayasan EMKAY donated a hearse to the Damansara Perdana Mosque in Petaling Jaya, Selangor. The donation was made by the heirs of the former Chairman of the Board of Trustees of the EMKAY Foundation in a brief ceremony.

The handover ceremony took place at the Damansara Perdana Mosque and attended by family members, members of the mosque committee, as well as management officers of MK Land Holdings Bhd. During the ceremony, Puan Hjh Felina Tan Sri Mustapha Kamal, representing the Yayasan EMKAY, expressed her hope that the mosque would maintain and manage the assets perfectly so that it would provide convenience to the entire congregation of residents in the area.

The Imam, Ustaz Amir Fauzan Hazim Adnan informed that the van will benefit four (4) surau in the same kariah, namely Surau Flora Damansara, Surau MSQ, Surau Perdana, and Surau Mutiara Damansara. They expressed their gratitude for the donation, which they believe will benefit tens of thousands of residents around Damansara Perdana by making funeral management easier.

Kunjungan Hormat ke Pejabat Pengarah Jabatan Kemajuan Orang Asli Negeri Perak dan Kedah

Pada Khamis, 24 Ogos 2023, Pengurus Yayasan EMKAY, Nurhanisah Mohd Mokhtar bersama Ketua Jabatan Komunikasi Korporat merangkap Pegawai Pengurusan Pihak-pihak Berkepentingan Kumpulan EMKAY, Encik Sam Kamar Osman telah berkunjung ke Pejabat Pengarah Jabatan Kemajuan Orang Asli (JAKOA) Negeri Perak dan Kedah, Tuan Hairulnizam Abd Rahman.

Kunjungan hormat ini memberi ruang kepada Yayasan EMKAY untuk membentangkan status terkini Program Pembangunan Komuniti Orang Asli Belum-Temengor dan cadangan peruntukan bajet bagi tahun 2024. Tuan Pengarah menerima baik perancangan sedia ada dan turut mencadangkan agar Yayasan EMKAY selaraskan program akan datang ini bersama JAKOA di bawah inisiatif 'Perak Sejahtera 2030' bagi menyantuni Orang Asli di Negeri Perak, terutama sekali di kawasan Hulu Perak melibatkan program pendidikan serta kemahiran (TVET).

*Sebagai tanda penghargaan, Encik Sam mewakili Yayasan EMKAY menyampaikan sijil penghargaan atas kerjasama dan sokongan berterusan JAKOA Negeri Perak dan Kedah kepada pihak Yayasan EMKAY sejak Program Saya Boleh! Diperkenal pada tahun 2010. **Terima kasih JAKOA!***

PICNIC IN THE PARK

Picnic in the Park was held at Taman Tasik Permaisuri Cheras on the 2nd of September 2023. The event aimed to provide an opportunity for visitors to gather, relax, and enjoy various activities amidst the serene surroundings of the park. It featured a mix of offerings, including coffee stalls, car boot sales, eco-bazaars, live painting by artists, and informational booths by conservation NGOs.

Pulau Banding Foundation (PBF) was invited by the organiser, Best Event Productions Sdn. Bhd. to spread awareness to the public about the significance of the Belum-Temengor Rainforest. PBF booth featured interactive displays, informative pamphlets, and engaging discussions.

Visitors had the opportunity to learn about the rich biodiversity, conservation challenges, and the foundation's efforts to preserve this precious ecosystem. The foundation's presence at the event added an educational dimension, fostering a sense of responsibility toward environmental stewardship.

Attendees not only enjoyed the various activities but also gained valuable insights into environmental conservation, among the other organisations that were invited were Global Environment Centre and TRAFFIC-Malaysia. The event provided a platform for NGOs to foster community engagement, promote sustainable practices, and raise awareness about the need to protect our natural treasures.

PARM Pre-AGM Arboriculture Insights

The Marina Putrajaya was abuzz with arboriculture enthusiasts on November 5, 2023, as the Persatuan Arborist Malaysia (PArM) organized its Pre-AGM Arboriculture Seminar. This gathering served as a vital platform for professionals and tree care enthusiasts to converge, discuss, and exchange insights on various facets of arboriculture, from tree care to conservation and the integration of greenery in urban spaces.

Diverse Topics Explored:

The seminar featured a lineup of distinguished speakers, each shedding light on critical aspects of arboriculture.

- **Speaker:** Certified Arborist (CA) Nurhidayah binti Hassan, Botanist, Gamuda Land; **Topic:** "Rewilding Urban Space"

CA Nurhidayah binti Hassan captivated the audience with her expertise on "Rewilding Urban Space." Her presentation delved into innovative approaches and strategies to reintroduce biodiversity into urban environments, emphasizing the importance of integrating nature into city landscapes.

- **Speaker:** Zulfadhlan Ahmad Khushairi, Assistant Manager, Pulau Banding Foundation; **Topic:** "Endangered Rare, Threatened and Newfound Tree Species in the Forest of Royal Belum"

Zulfadhlan Ahmad Khushairi, Assistant Manager at Pulau Banding Foundation, shared valuable insights into the delicate ecosystem of the Royal Belum Forest.

Focusing on endangered, rare, and newfound tree species, he discussed the challenges they face and the conservation efforts in place to protect these vital components of biodiversity.

- **Speaker:** Certified Arborist (CA) Marcus Tan Kok Wee, Managing Director, Merry Horticulture Int.; **Topic:** "Native Tree Stock Availability in Commercial Nursery"

CA Marcus Tan Kok Wee, Managing Director of Merry Horticulture Int., provided a comprehensive overview of the availability of native tree stocks in commercial nurseries. His talk covered the challenges faced by nurseries, strategies for maintaining healthy stocks, and the significance of using native trees in various landscaping and reforestation projects.

- **Speaker:** Afzaa Aziz, Conservation Manager, Tropical Rainforest Conservation & Research Centre (TRCRC); **Topic:** "Conservation Strategies for Endangered Tree Species"

Afzaa Aziz, Conservation Manager at TRCRC, shared invaluable insights into conservation strategies for endangered tree species. Focusing on practical approaches and initiatives, her talk provided a roadmap for preserving and rehabilitating the habitats of these endangered trees.

Conclusion:

The PArM Pre-AGM Arboriculture Seminar proved to be a dynamic and informative event, fostering collaboration, knowledge sharing, and a deeper understanding of sustainable tree management practices. The diverse range of topics covered reflects the growing importance of responsible tree care in both urban and natural environments.

- **Art with a Purpose:** Attendees enjoyed art that conveyed a conservation story, supporting the foundation's initiatives through purchases for a sustainable future.
- **Interactive Conservation Stations:** Interactive displays showcased Pulau Banding's flora and fauna, sustainable practices, and engaged visitors in hands-on activities.

Initiative:

- **Insect Conservation Initiatives:** Insect displays emphasized their vital role in biodiversity, and visitors learned about initiatives protecting endangered species and habitats.
- **Sell Mementos of Indigenous People:** Promoting eco-friendly mementos raised awareness about environmental conservation, supporting artisans and sustainable practices.
- **Community Engagement:** Community programs promoting a harmonious relationship between the local community and the environment were explored, with booth visits contributing to sustainable livelihoods and conservation education.

AVENUE-K AWARENESS EVENT

The Pulau Banding Foundation hosted a successful Awareness Booth at Avenue K, Level 3, from 4th October 2023 to 8th October 2023. The event aimed to inform and engage the community on the importance of preserving Pulau Banding's natural wonders and fostering a sense of responsibility for this ecological haven.

Booth Highlight:

- **Mission Unveiled:** Visitors learned about the foundation's mission to conserve the island's unique biodiversity, the challenges faced, and the strategies in place for protection.

The Avenue K Awareness Booth successfully educated the community about protecting Pulau Banding's Belum Tengor Forest. The event's positive engagement demonstrated its success, and the Pulau Banding Foundation remains committed to involving the public in future projects. This event marks a significant step in encouraging environmental conservation and sustainable forest development among Malaysians.

UNESCO World Heritage Volunteer 2023: Together in TRaCe-ing Royal Belum State Park Tropical Rainforest as Climate Stabiliser

From 11 to 21 September 2023, Universiti Malaysia Kelantan, in collaboration with the Pulau Banding Foundation as a Strategic Co-organizer, spearheaded the UNESCO World Heritage Volunteer program. Drawing the active participation of passionate youth from diverse corners of the globe, including Africa, China, India, Sri Lanka, Bangladesh, Indonesia, and beyond, this 11-day event was dedicated to the cause of preserving and appreciating the invaluable Royal Belum State Park Tropical Rainforest.

Under the resonant theme, “World Heritage Volunteers (WHV) - Together in TRaCe-ing Royal Belum State Park Tropical Rainforest as Climate Stabilizer,” the event sought to weave a narrative of collective responsibility. Fostering a sense of togetherness in tracing the ecological importance of the Royal Belum State Park enables a deep understanding of its role as a vital climate stabilizer.

At the heart of this endeavor we aim to raise awareness among the younger generation about the significance of appreciating, preserving, and promoting the protection of not only the Royal Belum State Park Tropical Rainforest but also the neighboring forests. Recognizing the park as a key player in climate stabilization, the event aimed to channel the enthusiasm and energy of youth towards sustainable and conscious initiatives. The programme featured five Volunteer Youth Action Camp initiatives meticulously designed to be sustainable, conscious, and beneficial to the local community.

The UNESCO World Heritage Volunteer 2023 emerged as a beacon of international cooperation and environmental stewardship. The event not only contributed to the preservation of the Royal Belum State Park Tropical Rainforest but also sowed the seeds of a global movement towards conscious and sustainable living. In tracing the footsteps of the past, the participants left an indelible mark on the legacy of the Royal Belum State Park, ensuring its role as a climate stabilizer is cherished and protected for generations to come.

SDSN Asia Pacific Solution Forum

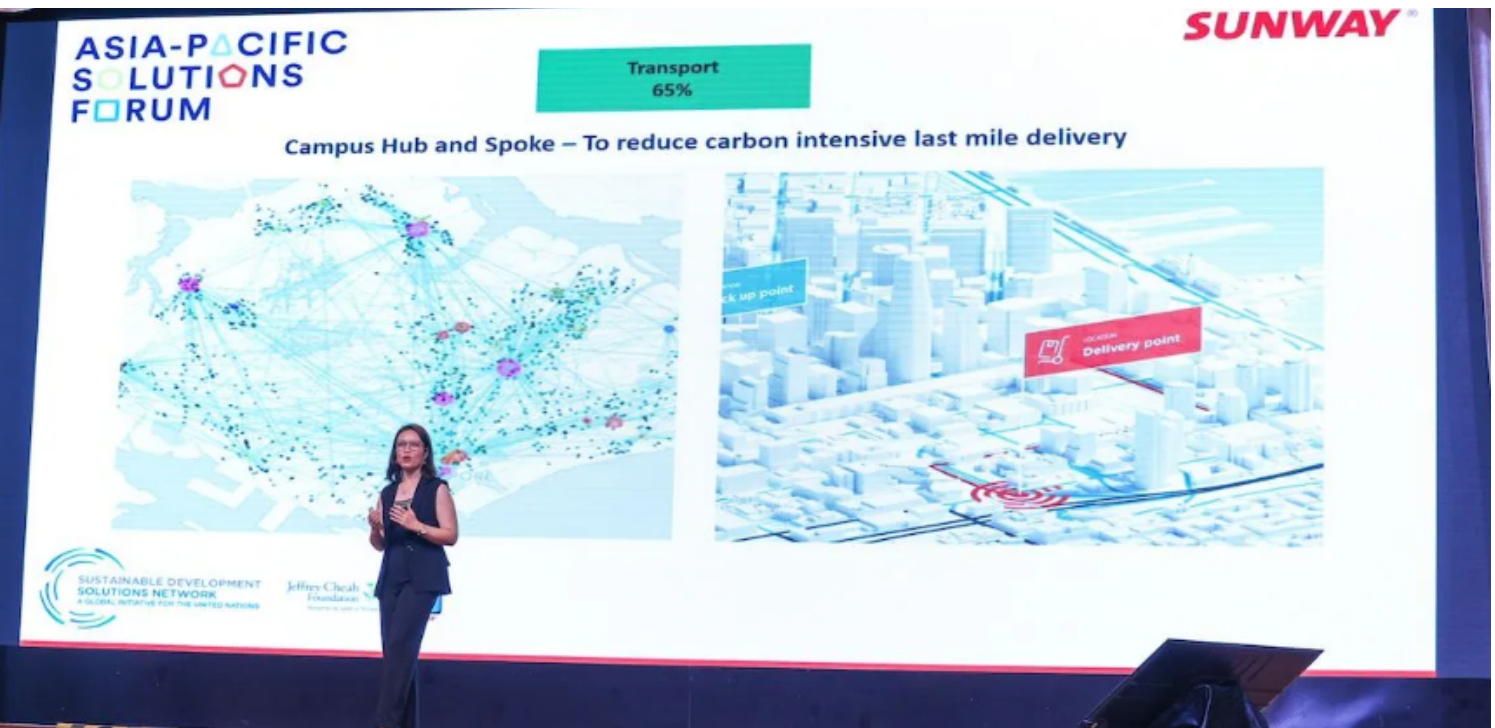

The inaugural Asia-Pacific Solutions Forum (APSF) was held by SDSN on November 2, 2023, at the Sunway Resort Hotel in Sunway City, Malaysia. The focus of the event was "Accelerating Local Action for the SDGs in the Asia-Pacific." The APSF highlights important facilitators as well as obstacles to sustainable development in the Asia-Pacific region. Drawing inspiration from SDSN's previous four Global Solutions Forums, the APSF presents creative, scalable, reproducible, and research-backed solutions that have been found among SDSN members and local business partners. This seminar and discussion come at a pivotal moment as we approach the halfway point of Agenda 2030 and as the COVID-19 pandemic has impeded progress towards achieving the Sustainable Development Goals (SDG). There were 140 people present at the event, including CSOs, academics, government officials, and business executives.

The forum commenced with remarks from Prof. Woo Wing Thye, Vice-President of Asia, SDSN, and Research Professor at Sunway University; Tan Sri Sir Jeffrey Cheah KBE AO FASc, Founder and Chairman of the Sunway Group; and Steven Sim, Deputy Minister of Finance II of Malaysia.

Six presentations of solutions and a few quick questions from the feedback panel came next.

Either a local business partner of a member institution or an SDSN member provided the solutions that were presented.

"It can be difficult for solution suppliers to find a way to demonstrate their influence. More connections between the public and commercial sectors and these sustainability solution providers will speed up the widespread adoption of new technologies."

–Research professor at Sunway University, vice president of Asia, and member of the SDSN

- Presenting the SDSN Philippines' Community-led Central Kitchen Model for Feeding School Children was Dr. Carmela C. Oracion of the Ateneo Centre for Education Development.
- Dr. Janya Chanchaichujit from Prince of Songkla University presented the Net Zero Emissions Roadmap and Tools for Driving Sustainable Postal and Logistics Service Providers from SDSN Thailand to the audience.
- PARCIS (Portable Archimedes Screw): Transportable Mini-Hydro Power Plant as a Transition and Decentralisation Accelerator to Support SDSN Indonesia's Realisation of Local Energy Resilience delivered by Adnan Hasyim Wibowo of the University of Indonesia's Sustainable Development Goals Hub
- Sio Chun Jia from Life Origins presented An Automated Waste Conversion Process to Protein & Oil using Black Soldier Fly Larvae by SDSN Malaysia.
- Israruddin, the network manager for SDSN Southeast Asia, and Stevanus Wawiyai from the Mangi-Mangi Warrior Raja Ampat co-presented Mangrove Reforestation: Restoring Ecosystem and Empowering Communities for a Sustainable Future.
- With a presentation by Elvin Ivan Y. Uy of the Philippine Business for Social Progress, Inc., SDSN Philippines is advancing client-centered care and expanding sustainable services for tuberculosis.

Following the presentations of all the options, the panellists were called to the stage for an interactive debate, and Prof. Jeffrey Sachs, President of SDSN, joined in real time to deliver the final remarks to wrap up the programme.

Collaborative Innovation for a Sustainable World: The Steelcase Changemaker

In a recent Design Thinking workshop at Steelcase Kuala Lumpur Business Centre, the Steelcase Changemaker group led a day of collaborative problem-solving focused on Environmental, Social, and Governance (ESG) challenges. The workshop featured guest speakers from the Pulau Banding Foundation, known for their environmental conservation efforts.

The bustling Steelcase Kuala Lumpur Business Centre transformed into a hub of creativity and sustainability as employees gathered for a day of collaborative problem-solving. The event, spearheaded by Steelcase Changemaker, underlined the company's commitment to fostering a culture of environmental responsibility.

The Design Thinking workshop, a key element of the day's agenda, provided participants with a structured approach to problem-solving that prioritizes empathy, ideation, and experimentation. This methodology is particularly relevant when addressing complex challenges related to ESG and design.

The Pulau Banding Foundation, recognized for its commendable efforts in environmental conservation, was invited to share its insights and experiences with the workshop attendees. Representatives from the foundation spoke passionately about their organization's mission and the importance of integrating sustainable practices into everyday life. Their presence added a real-world perspective to the workshop, bridging the gap between theory and practical application. During the workshop, participants engaged in hands-on activities and group discussions facilitated by experts in the field of design thinking. These activities encouraged creative thinking, collaboration, and the exploration of innovative solutions to address ESG challenges faced by both Steelcase and the broader community.

As participants delved into the intricacies of design thinking, they gained valuable insights into how to approach and tackle ESG-related issues in their professional and personal lives. The event not only fostered a sense of community within Steelcase but also reinforced the company's dedication to making a positive impact on the environment. In conclusion, the Pulau Banding Foundation Programme at Steelcase Kuala Lumpur Business Centre showcased the potential for meaningful collaboration between corporations and environmental organizations. By incorporating Design Thinking principles into the workshop, participants were not only educated on ESG challenges but also empowered to contribute to innovative solutions. The event stands as a testament to the importance of proactive engagement in sustainable practices, reflecting a shared vision for a greener and more responsible future.

PBF - Steelcase Industry Tour with UPNM - UTP Students

On 10th November 2023, Steelcase in collaboration with Pulau Banding Foundation (PBF) has organized an Industry Tour with Universiti Pertahanan Nasional Malaysia (UPNM) and Universiti Teknologi Petronas (UTP). These efforts have created design innovations with critical thinking. As a leading company in the production of furniture for offices, hospitals, and classrooms, Steelcase brings a unique nuance to this experience by bringing design and critical thinking methods to students.

Ir. Dr. Azim Rahman, as Director - Product Engineering Asia Pacific at Steelcase, also shared his experience and provided deep insight into the company. Inspiringly, Steelcase furniture is inspired by innovative research in workspace design, creating an environment that supports creativity and productivity. In addition, PBF was invited by Steelcase to share with the students about the management and activities carried out by the foundation.

Included in the discussion are topics such as community development (CSR), expeditions, conservation, seminars, workshops, studies, trail guidebooks, and program awareness. PBF, with a vision to promote the development of the Belum-Temenggor rainforest ecosystem, aims to conduct research, raise funds to support research programs, develop information systems, form a global network, become financially independent, and promote Belum-Temenggor as an ecotourism destination.

This collaboration not only enriches students' knowledge in design and industry, but also increases understanding of social and environmental responsibility in the context of continuous development. This industry tour has opened the door for students to apply their critical thinking in the real world, while simultaneously embracing the sustainability vision of Banding Island Foundation.

BUKIT MERAH ORANG UTAN ISLAND FOUNDATION

INTO THE HEART OF NATURE: PLANNING THE ULTIMATE ORANG UTAN ISLAND ADVENTURE!

Get ready for an adventure of a lifetime as the school announces an upcoming trip to Orang Utan Island! Families, students, and faculty are invited to join in on a journey to this incredible sanctuary in Bukit Merah Orang Utan Island, Perak, where lush greenery meets the playful antics of endangered orangutans.

Planning the Ultimate Adventure: Orang Utan Island Getaway

Orang Utan Island is not just a destination; it's a commitment to wildlife conservation. The guided tour will offer insights into the lives of these incredible creatures, their behaviors, and the conservation efforts in place to protect them. This adventure is designed to be educational and inspire a sense of responsibility among students to contribute to the well-being of orangutans and their habitats.

How to Join the Adventure:

- **Sign Up for the Trip:** Families and students are invited to immerse themselves in the beauty of nature, learn about orangutans, and contribute to their conservation
- **Spread the Word:** Help make this trip a success by sharing the details with friends, family, and colleagues who might be interested in joining on this meaningful journey
- **Adventure Awaits:** Stay tuned for trip details, including departure dates, itinerary, and how the community can be part of this exciting opportunity. Let's come together to make a positive impact on the environment and the lives of orangutans.

SUPPORTING ORANG UTAN CONSERVATION

FUNDRAISING FOR THE ADVENTURE

PLAN

As the plans an exciting trip to Orang Utan Island, a fundraising campaign is also underway to support orangutan conservation. Contributions from the community will directly contribute to the welfare of these magnificent creatures.

SUPPORT THE CAUSE

- **Donate to the Fund:** Every contribution, no matter the size, makes a significant impact on the well-being of orangutans. Families and individuals can visit the school website or contact the administration office to make a donation.
- **Sponsorship Opportunities:** Explore sponsorship packages, offering businesses and individuals the chance to contribute at varying levels.

Sponsors will be recognized in newsletters, on the school website, and at events, showcasing their commitment to wildlife conservation.

- **Spread Awareness:** Join in spreading awareness about the importance of orangutan conservation. Share information on social media, organize awareness events, and encourage others to get involved.

COLLECTIVE IMPACT

By coming together as a community, a meaningful difference can be made in the lives of orangutans. The funds raised will support the island's ongoing initiatives, including veterinary care, habitat preservation, and community education programs.
